#### A MURDER MYSTERY SOLVED.

THE TRIAL OF TWO ITALIANS FOR KILLING AN-THONY PRISCO IN APRIL LAST TO BEGIN TO-DAY AT NEW-BRUNSWICK, N. J.

mystery which at first surrounded the death of Anthony Prisco, and other circumstances con-nected with the case, will all be revived by the trial at New-Brunswick to-day of two Italians with his murder. Anthony Prisco was an Italian of considerable

autopsy revealed that death was due to a fracture of the skull.

Detectives investigated the case, and suspicion fell upon three Italians, Guiseppe Arace, Alliano Spina, and another whose name is unknown. The theory was advanced that these men killed Prisco to evade the payment of the balance they owed him on the farm which they had purchased. The evidence in support of this theory was conclusive. A piece of rope with blood on it was found near the house. The sign of a cross cut on a "blazed" tree a short distance from the house was also found; and last week, while out in that vicinity, the detectives dig up a bloody shirt, which, they assert belongs to Alliano Spina, one of the Italians now in jail charged with the crime.

It is the theory of the detectives that Prisco was murdered near his house and his body carried to the tracks, where it was placed, to destroy all evidence of the crime.

When Prisco's hody was discovered, letters were found in his pockets from Richard Croker and President Cleveland's secretary. F. K. Thurber, in relation to some political appointment Prisco was endeavoring to obtain.
